

INVESTMENTS IN CLEAN MOBILITY

The FY'23 State Budget presents an opportunity to make strategic investments in clean mobility to advance Michigan's leadership, safeguard mobility jobs, and invest in cleaner air for everyone.

VEHICLES, INFRASTRUCTURE, WORKFORCE

\$50M EV and Charger Rebate Program

\$10M to transition state fleet vehicles

\$45M for transit and school bus electrification

\$130M for education and teaching grants in advanced mobility industries

STATE LEADERSHIP IS CRUCIAL

As the global auto industry changes, we need to double down to support this critical economic driver. Together, these investments will show that Michigan is serious about supporting the evolving mobility industry.
